LISTAHÁSKÓLI ÍSLANDS
Iceland University of the Arts

Accessibility Guide - Laugarnesvegi 91

1. Arriving by car

The building has two entrances, each with two designated disability parking spaces. When entering the driveway, you can turn left or right.

Left side – Main entrance level
Two labeled disability parking spaces are located next to the reception on the ground floor.

Right side – Upper level
Two additional disability parking spaces are located on the upper level. A ramp provides step-free access into the building for wheelchair users or those using walking support.

2. **Arriving by bus or by foot**

In case you are arriving by bus or by foot, the walking path is smoothed out and without thresholds on the way to the main entry.

Just be aware that the path can be relatively steep for some support devices.

Main Entrance with reception

Iceland University of the Arts

2. **Main Entrance and Reception**

The door is unlocked during university opening hours
Monday - Friday 08:00 - 16:00, Fridays 08:00 - 13:00

The door can be opened using the metallic push-button until 17:00:

Upon entering, the reception is located on the left.

A wheelchair is available for booking and is stored next to the staircase.

Iceland University of the Arts

3. **Second entrance**

After moving up the stairs or using the ramp, you reach a heavy door.

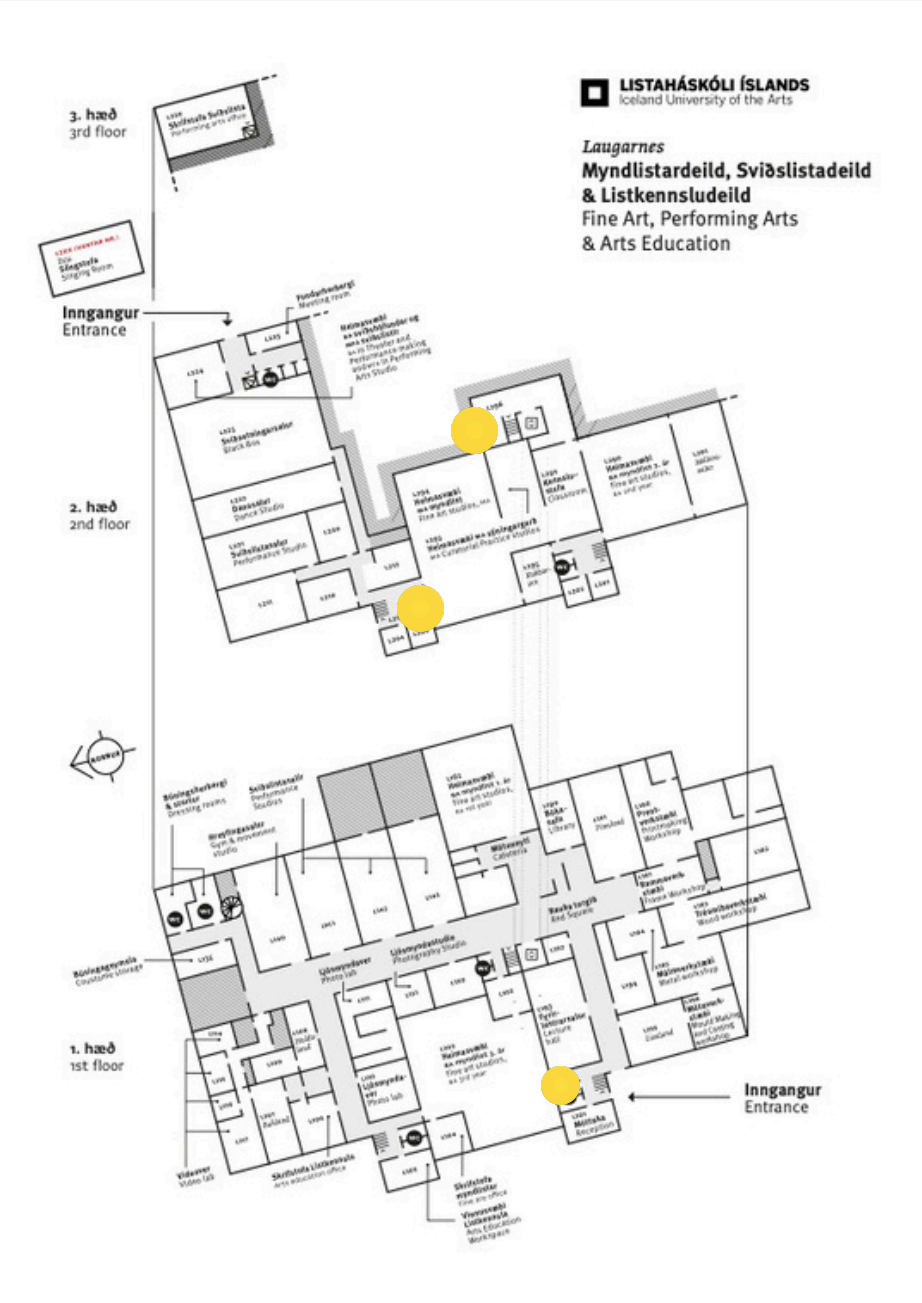

This door opens with a staff or student card. There is no automatic opener, **so assistance may be helpful if needed.**

Inside, there is a small couch on the left for resting.

4. **Accessible restrooms**

There are **three barrier-free restrooms** across the building.
Their locations are marked with yellow dots on the building map.

Restroom near reception
This restroom includes a baby changing station. Like the main entrance, the door opens using an automatic metal door opener on the outside.

Just like the main entrance,
the restroom doors open using an
automatic metal door opener on the outside.

The other accessible bathrooms have the same layout and accessibility features, without the baby changing station..

5. **Elevator**

A large elevator is located in the main downstairs hallway.

The buttons correspond to:
0 – Ground floor
1 – Second floor
3 – Not in use

The elevator accommodates wheelchairs and mobility devices.

6. **Thresholds and ramps**

Across the building, all door thresholds are covered with small ramps to ensure smooth movement between rooms.

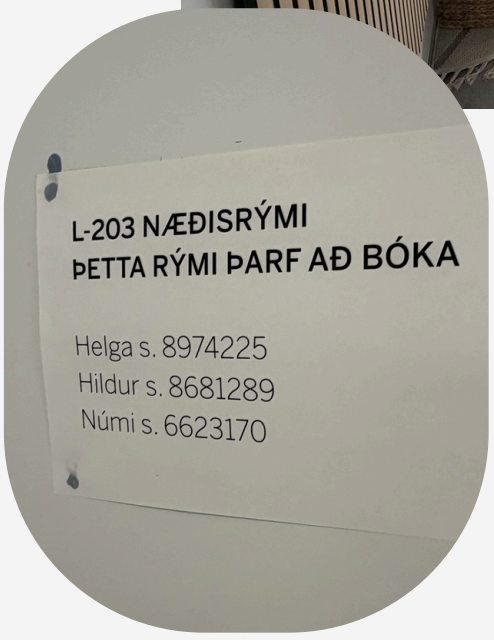

Including emergency exits

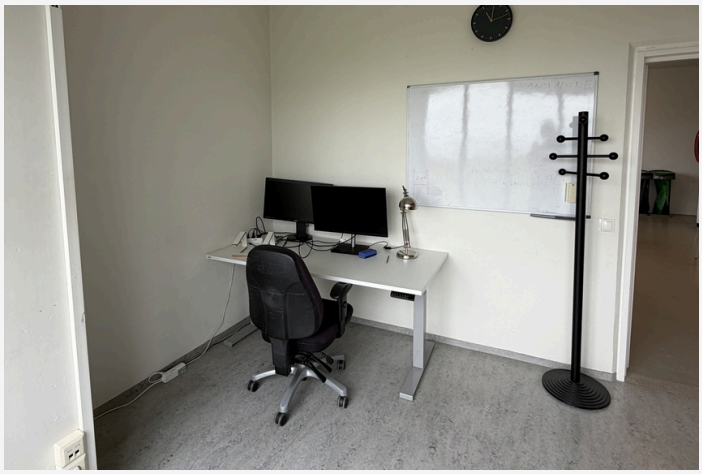

7. Quiet room, L-203

On the second floor, there is a quiet space with comfortable seating and a workspace.

The room can be booked by calling one of the numbers to being seen here.

8. Classrooms and studio spaces

Classrooms are also intended to open with automatic door openers. However, some may occasionally be out of order, so you might need assistance at times.

The spaces between the studio walls are wide enough for wheelchair access, and moving freely between rooms should be possible.

9. Meeting point and contact person

Next to the cafeteria on the ground floor, there is a large red dot that serves as a meeting point. It can be used to clearly indicate where to meet others.

If you need support, or want to call someone before visiting the building, you can reach out to Hildur (8681289), Helga (8974225) or Númi (6623170).

If you notice anything missing from this guide, need additional information, or would like to share feedback of any kind, please email marieke@lhi.is. We welcome all feedback and are happy to improve this document whenever needed.
